

System Integration Engineer. Robotics Deployment.

Munich, Germany | Graz, Austria. Publishing Date: 1 March – 31 March 2024.

Are you passionate about ensuring seamless integration and delivering top-notch technical solutions? Look no further! At Exotec, we're seeking a talented Integration Engineer to play a pivotal role in our dynamic deploy team.

WHAT YOU WILL BE DOING?

- **Ensure Excellence in Integration:** Champion the application of Exotec's cutting-edge engineering processes and standards throughout the integration phase, ensuring flawless execution.
- **Craft Elegant Solutions:** Your role involves meticulously ensuring that all systems are seamlessly integrated into a coherent and elegant solution that exceeds client expectations.
- **Client Interface Extraordinaire:** Be the primary point of contact for our clients, leading technical discussions and providing expert guidance to ensure their needs are not just met, but exceeded.
- **Collaborative Liaison:** Serve as the bridge between the integration team and other departments, including Product and Design, offering support and insights to tackle any challenges that arise.
- **Certification Strategy Maven:** Define and implement a comprehensive certification strategy for our entire solution, ensuring quality and reliability at every step.

WHO YOU ARE?

- Prior background in warehousing, logistics, or materials handling is advantageous.
- Strong experience with Warehouse Management Software (WMS) and integration.
- Bachelor's degree in Engineering, Computer Science, or related field.
- Organized, accurate, with a sharp eye for detail.
- Fluency in English and German required.
